DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Re claim 1:

Line 1: Replace "Device for handling banknotes, comprising" with – A device for handling banknotes comprising: --.

Line 5: Replace "and so on to a last storage unit" with – and so on until an nth storage unit, where n is greater than 2--

Line 17: Replace "last local control unit arranged at said last storage unit" with – nth local control unit arranged at said nth storage unit--.

Line 23: Replace "banknote," with – banknote, before said banknote reaches the first storage unit.--

Re claims 2-20, line 1: Replace "Device" with -- A device --.

Replace claim 21 with:

--A device according to claim 1, further comprising a first computer readable medium, comprising instructions that when executed by a computer, brings said computer to act as a central control unit associated with the device.—

Replace claim 22 with:

--A device according to claim 7, further comprising a first computer readable medium, comprising instructions that when executed by a computer, brings said

Art Unit: 2887

computer to act as an infeeding and outfeeding control unit associated with the device. –

Renumber claim 24 as claim 23 and replace with the following:

--A device according to claim 22, wherein the instructions are stored in a computer readable medium. –

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

2. Claims 1-23 are allowed.
3. The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach the limitations that the central control unit communicates position information from the position sensor with local control units of respective storage units such that the central and respective local control units have a common synchronous apprehension of the position of said transporting system wherein when the identifying unit has identified a banknote when the position of the banknote in the transporting system is established by the position sensor, the central control unit communicates the position of the banknote to the corresponding local control unit intended for said identified banknote before the banknote arrives at the first storage unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. (See PTO-892).
